SCHOOL OF COMPUTER STUDIES

JAC444 **Demo Due dates : Feb21,2020**
Final Code Submission Date: Feb22,2020

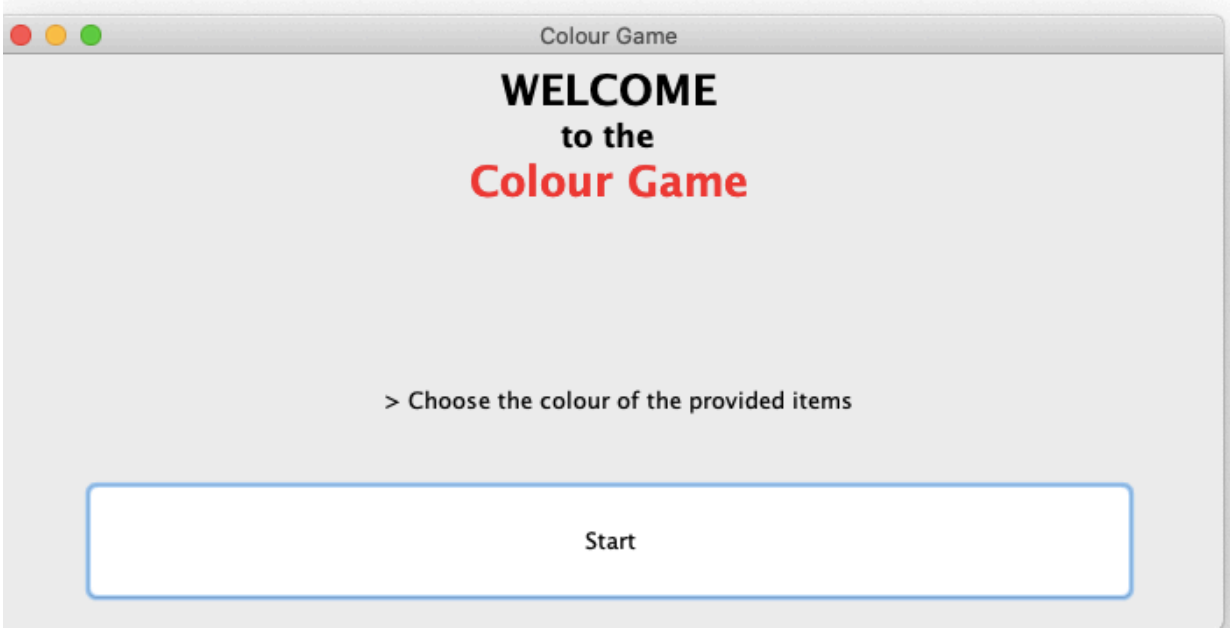
Workshop 6

Notes:

i. In order to get the final mark, all tasks should be posted on the blackboard. At least one of the tasks should be demoed in Feb21st lab.
ii. Make sure you have all security and check measures in place, like wrong data types etc.
iii. Given output structure is just for student to have a glimpse what the output can look, students are free to make the output better in any way.

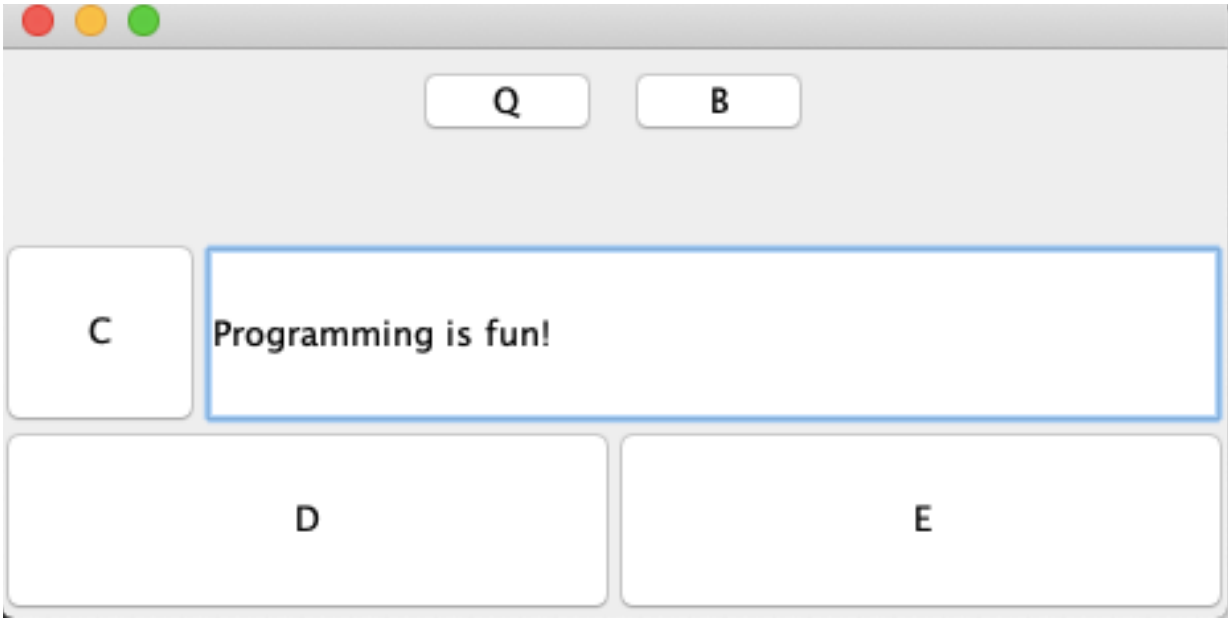
Other inputs can be given during demo, so make sure you test your program properly.

Task 1: Write a program that shows the following output (No action is required):

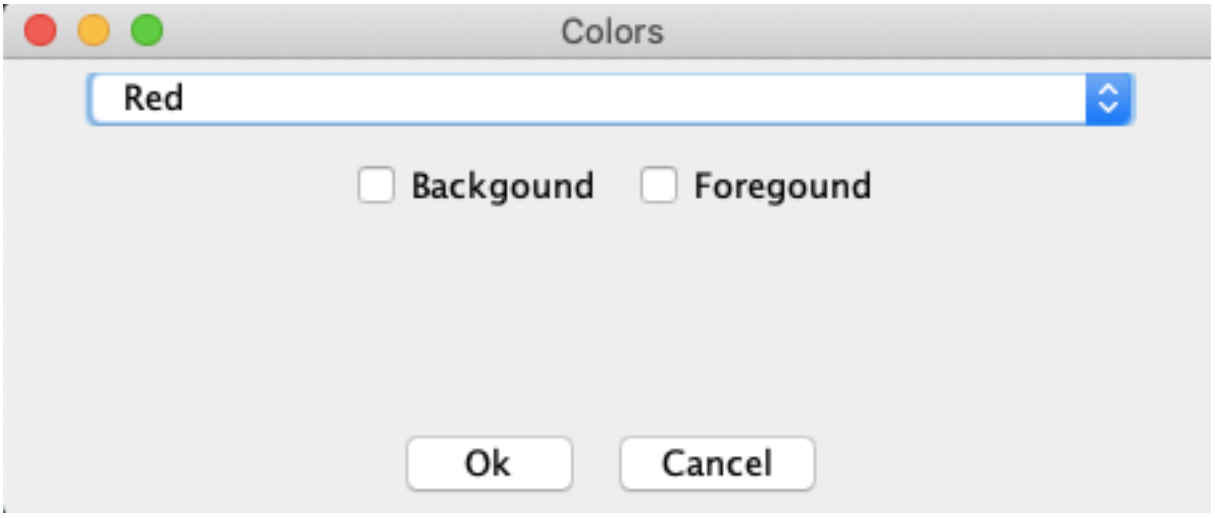


Hint: You might use the Font and Color classes in order to finish the style.

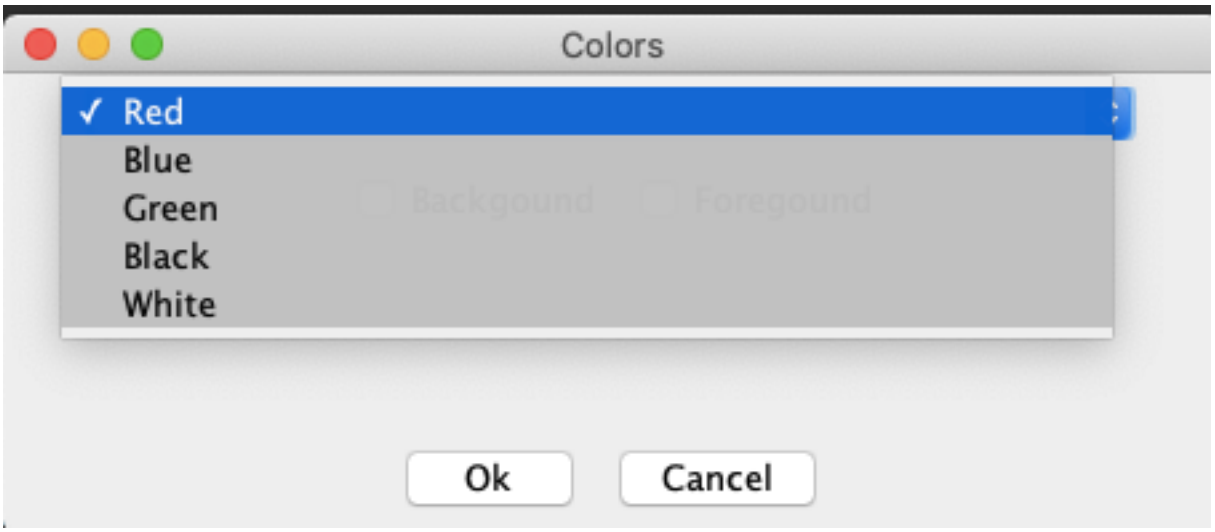
Task2: Write a program that shows the following output (No action is required):



Task3: Write a program that shows the following output (No action is required):



Note: The combo box should show the following colors:



Colors
✓ Red
Blue
Green
Black
White
Backgound
Foregound
